## Do you want your research to:

- Stand out from the crowd
- Be read
- Be cited
- Have impact

CERES provides the right eye catching environment for your research:

- Regularly harvested by the major search engines – aids discovery
- Accessible to research communities worldwide
- Part of a growing network of interlinked E-research collections
- Generates evidence of paper views and downloads
- Added value linking to researcher profiles, related papers and web pages
- Promotes knowledge transfer and demonstrates capabilities using podcasts and other media

Be seen, be read, be cited!
